# Beyond Tooth Whitening!

If your smile is looking a little lacklustre of late, why not try Beyond White Spa— a revolutionary new tooth whitening system that promises to give you a celebrity smile without the dentist!

Thanks to new state of the art technology, tooth whitening is now available as a cosmetic treatment in beauty salons and as a quick, easy tooth whitening kit for you to try at home! Sounds too good to be true? R reporters put it to the test!

Tooth Whitening is a technique that has been in development for over 100 years and has never been shown to cause harm to teeth. Until recently however, it remained relatively exclusive to the rich and famous – or for those that could afford it – expensive (and sometimes nerve wracking) trips to the dentists chair.

That is all about to change thanks to Industry specialists Medontic who are the sole UK agents for Beyond White Spa – an exciting new state of the art tooth whitening system used by thousands of dentists around the world. Effective and affordable, Beyond White Spa is perfect for beauty salons looking for a new, exclusive treatment to offer their clientele. Recognised as the safest, most effective, professional tooth-whitening accelerator on the market, this revolutionary treatment promises instant, amazing results in just 40 minutes! Beyond White Spa is also available as a professional kit for clients to use in the comfort of their own home.

## HOW IT WORKS

Beyond Whitening uses a revolutionary, cold light technology combined with a specially formulated whitening gel without exposure to harmful UV or infra red light. It is a comfortable, safe effective treatment for teeth stained by coffee, wine and tobacco - in some cases making teeth up to eight

shades lighter! It is also effective on tetracycline and fluoride stains although for optimum results some patients may require more than one treatment.

## R VERDICT

The treatment, divided into two twenty-minute sessions, is quick, easy and completely painless. The relaxed, calming salon environment is a definite plus point - perfect for dentist phobics! In fact, unlike when you're sitting in the dentists chair (!), you feel totally comfortable and relaxed and hardly feel like you're having a dental treatment at all! Quick, gentle, safe and very effective this amazing treatment is well worth the money – wiping stains and years off your teeth – giving you a 'celebrity bling' smile in as little as your lunch hour! If your budget doesn't quite stretch to the salon treatment however, the Beyond Tooth Whitening Home Kit (priced £175) is ideal for brightening teeth and removing stubborn stains that many conventional tooth whitening products won't remove – leaving you with a perfect photo finish smile to be proud of!
